

ALPINE ENERGY
EV FAST CHARGING

CREDIT CARD ONLY

Step 1

Check Availability

Ensure the station is ready and your desired connector is available.

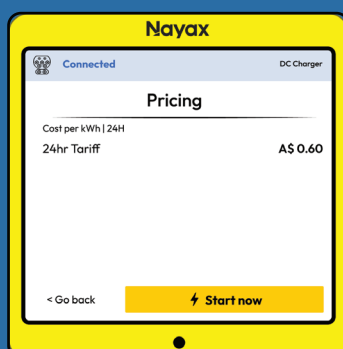

Step 2

Connect Cable

Firmly plug the charging cable into your vehicle's charging port.

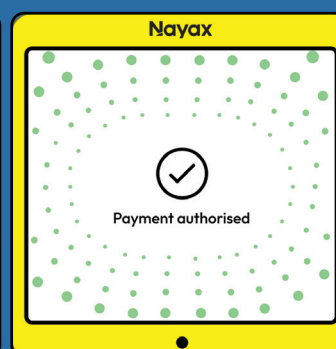

Step 3

Start Session

Select your connector on the screen and click the "Start Now" button.

Step 4

Payment

Present your card or mobile device for authorisation.

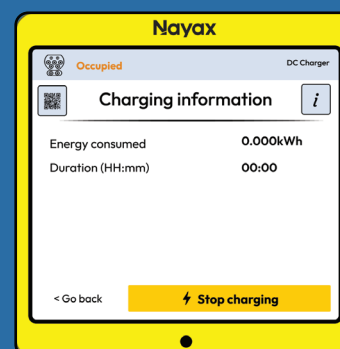

Step 5

Charging

Charging has started. Charger screen is for indication only.

Step 6

Select to Stop

To end, select your connector on the screen and click the "Stop" button.

Step 7

Finalise Stop

Present the same card used to start the session to finalise payment.

Step 8

E-Receipt

Disconnect cable and return to holster. Scan the QR code for your receipt.

EMERGENCY STOP LOCATED ON THE RIGHT SIDE OF THE UNIT

IF CHARGING FAILS TO START

For DC Charging (Fast Charging):

1. Unplug the cable from your vehicle

For AC Charging:

1. Ensure the cable is firmly clicked into the vehicle port.
2. If the session does not authorise, tap your card again.
3. If issues persist, check the NAYAX for station status.
